<https://github.com/mostafa-khansa> | Beirut, Lebanon

PROFESSIONAL SUMMARY

Software developer with 13+ years of experience building complex web applications from the ground up. While I work across the full stack, my core strength lies in backend architecture, database design, and translating business logic into effective solutions. I prioritize understanding user requirements before writing the first line of code, ensuring the system meets actual needs. On the frontend, I focus on building clear, well structured interfaces that keep users oriented, even within complex workflows.

PROFESSIONAL EXPERIENCE

Software Developer Wizard Solutions

Feb 2018 – now
Jal El Dib, Lebanon

- Successfully migrated a legacy desktop ERP into a modern web application using PHP, MySQL, and JavaScript; the platform now supports over 1,000 major clients across Lebanon and generates predictable, recurring monthly revenue.
- Rewrote a legacy POS system as a modern cross-platform application using Flutter and SQLite, integrating it seamlessly with the core ERP via a REST API.
- Continuously scale and extend both the ERP and POS applications, regularly shipping new features, optimizing database performance, and maintaining system stability for the active user base.

Software Developer Al-Kaff For Computer

March 2013 – Sep 2017
Riyadh, KSA

- Developed multiple web applications to automate monthly employee payroll processing and manage secure member ATM card issuance and operations.
- Resolved critical performance bottlenecks in existing web applications by switching database engine (MyISAM to InnoDB) and redesigning existing tables, eliminating costly N+1 queries, and refactoring inefficient business logic.

TECHNICAL SKILLS

- **Programming Languages:** PHP, JavaScript, TypeScript, Dart, Python
- **Libraries and Frameworks:** React, Next.JS, Node.JS, Flutter, PHP MVC
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Architecture:** Modular Monolith, REST API
- **AI Fundamentals:** RAG, Vector Databases, tools calling, LangChain
- **OTHERS:** GitLab, Vercel, Render, Supabase, Neon DB, Prisma ORM
- **IDE:** Cursor IDE, Google Anti Gravity

Bachelor of Science: Computer Science | Sep 2012 | [Lebanese International University](#)
